### About Us

#### About Siddhant College of Pharmacy (SCOP), Sudumbre, Pune, M.S.

Siddhant College of Pharmacy (SCOP) is right choice for your important step of graduation and post- graduation education and you will never regret it. You will learn the science of pharmacy and along with it you will become a trustworthy Professional that nation needs. The teaching learning process at Siddhant college of Pharmacy emphasizes on personalized attention where students of all socioeconomic backgrounds feel comfortable. Students at Siddhant enjoy the process of graduation and are highly motivated. Systems are designed to encourage active involvement for developing and expressing the curious and creative minds. Along with graduation we emphasize on development of personality and right attitude as a Professional. We treat our student as professional right from day one and mold them to utilize their optimum potential to quench the requirement of nation. We are reputed for excellent results and best placement of our students in the field of industry, marketing and research. We have excellent research facilities where we have tie-up with industries. We have highly qualified team of faculty with four doctorates and other persuading doctorates to meet the need of higher education.

#### About Ateos Foundation of Science Education and Research (AFSER), Kondhwa Bk, Pune, M.S.

AFSER has all the statutory and mandatory approvals from Govt of India. AFSER has objectives to promote Science research, education, training and development activity for skilled Indian youths and worldwide in fields of Pharmacy, Engineering, Science, Medical, Dental Sciences. It aims to fill the gap between educational needs and actual practical approach of the students of science streams of all kinds, towards the society. Also, it promotes conducts various philanthropic online and offline programs. AFSER has partially sponsored SCOP to conduct 2- Days Webinar on "Recent Advances in Pharmaceutical, Biological and Chemical Sciences" on 15<sup>th</sup> -16<sup>th</sup> Oct 2022.

#### About Conference "2- Days Webinar on "Recent Advances in Pharmaceutical, Biological and Chemical Sciences" on 15<sup>th</sup> -16<sup>th</sup> Oct 2022"

The conference shall inter alia highlight the significance of recent advances in Pharmaceutical, Biological and Chemical Sciences.

### Introduction and Scope

#### Introduction and Scope

- Pharmaceutical Sciences or Pharmacy** is the clinical health science that links medical science with chemistry and it is charged with the discovery, production, disposal, safe and effective use, and control of medications and drugs. The practice of pharmacy requires excellent knowledge of drugs, their mechanism of action, side effects, interactions, mobility and toxicity. At the same time, it requires knowledge of treatment and understanding of the pathological process. Some specializations of pharmacists, such as that of clinical pharmacists, require other skills, e.g. knowledge about the acquisition and evaluation of physical and laboratory data. The scope of pharmacy practice includes more traditional roles such as compounding and dispensing of medications, and it also includes more modern services related to health care, including clinical services, reviewing medications for safety and efficacy, and providing drug information. Pharmacists and other experts on drug therapy and are the primary health professionals who optimize the use of medication for the benefit of the patients. All establishments in which pharmacy (in the first sense) is practiced is called a pharmacy (this term is more common in the United States) or a chemist's (which is more common in Great Britain, though pharmacy is also used in the United States and Canada, drugstores commonly sell medicines, as well as miscellaneous items such as confectionery, cosmetics, office supplies, toys, hair care products and magazines, and occasionally refreshments and groceries, in its investigation of herbal and chemical ingredients, the work of the apothecary may be regarded as a precursor of the modern sciences of chemistry and pharmacology, prior to the formulation of the scientific method.
- Chemistry or chemical sciences** is the scientific study of the properties and behavior of matter. It is a natural science that covers the elements that make up matter to the compounds, composed of atoms, molecules and ions; their composition, structure, properties, behavior and the changes they undergo during a chemical reaction with other substances. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it provides a foundation for understanding both basic and applied scientific disciplines at a fundamental level. For example, chemistry explains aspects of plant growth (botany), the formation of igneous rocks (geology), how atmospheric ozone is formed and how environmental pollutants are degraded (ecology), the properties of the soil on the moon (cosmochemistry), how medications work (pharmacology), and how to collect DNA evidence at a crime scene (forensics). Chemistry addresses topics such as how atoms and molecules interact via chemical bonds to form new chemical compounds. There are two types of chemical bonds: 1. primary chemical bonds—e.g. covalent bonds, in which atoms share one or more electrons; ionic bonds, in which an atom donates one or more electrons to another atom to produce ions (cations and anions); metallic bonds—and 2. secondary chemical bonds—e.g., hydrogen bonds, Van Der Waals force bonds, ion-ion interaction, ion-dipole interaction.
- Biological Sciences or Biology** is the scientific study of life. It is a natural science with a broad scope but has several unifying themes that tie it together as a generalization. Another major theme is evolution, which explains the unity and diversity of life. Energy processing is also important to life as it allows organisms to move, grow and reproduce. Finally, all organisms are able to regulate their own internal environments. Biologists are able to study life at multiple levels of organization, from the molecular biology of a cell to the anatomy and physiology of plants and animals, and evolution of populations. Hence, there are multiple subdisciplines within biology, each defined by the nature of their research questions and the tools that they use. Like other scientists, biologists use the scientific method to make observations, pose questions, generate hypotheses, perform experiments, and form conclusions about the world around them.

### SEMINAR ON “CLINICAL RESEARCH”

**DATE:** 24<sup>th</sup> November 2022

**VENUE:** Siddhant College of Pharmacy, Class room No.1

**OBJECTIVE:**

1. To train participants in relevant research on a topic and to provide an opportunity for practical learning in a small group setting
2. To discover new facts or to make fresh interpretations of known facts.

**OUTCOME:** It is a measure that describes or reflects how a patient feels, functions, or Survives.

**SUMMARY:**

Siddhant College of Pharmacy, Pune organized a seminar on ‘Clinical Research’ on 24th November 2022 at 11.00am for the Final year B.Pharm Students.

The talk began by the deliverance of welcome address by the officiating principal of the college Dr.Rahul Dumbre. He congratulated the TPC cell for taking the initiative to organize a talk on such an apt topic. He in his address emphasized on the need of career to the students for exploring employment opportunities. He also said such sessions for students are necessary to develop their competency in achieving their career goal. Our UG-HOD Dr.Swati Deshmukh also gave importance of Clinical Research.

The resource person Dr.Shewta Hande was introduced our students by Ms.Janhvi Pagar. The speaker was then invited to deliver the talk. The resource person began the session by stating that presented an overview on clinical research and the benefit to advance the quality

of health care systems with a focus on the health care. He also stressed the importance of clinical research ethics as an important principle in conducting any research. To improve health service good quality clinical research is a must. Dr talk was on delay on knowledge translation and the knowledge lost making the use of basic science into clinical practice unnecessary delay.

Overall, the session was highly informative and educative to the aspiring and ever-enthusiastic students. All together 50 students attended the Seminar.

### WEBINAR ON "DRUG DISCOVERY AND DEVELOPMENT"

**DATE:** 11 SEPTEMBER 2021.

**VENUE:** MICROSOFT TEAM.

#### OBJECTIVE:

1. To achieve brief account of drug discovery by molecular designing and drug development.
2. To provide comprehensive overview of the drug discovery process against a backdrop of the technology and research revolution.

#### DESCRIPTION:

Siddhant College of Pharmacy with the collaboration Citron Private Limited successfully organized Webinar on "Drug Discovery and Development" at 11 September 2021 at 11.00am by virtual mode, delivered by our speaker Dr. Pratima Shinde Ma'am, Production Manager, Citron Private limited.

She discusses complete drug discovery and development process, design strategies and policies for innovation in this process. How the new drug developed, so prevent the misery and death caused by diseased. She taught stages of drug discovery.

The entire session was an interactive session, 85 participants were participated online as well as offline mode and the speakers answered many queries raised by the participants.

On the inaugural function, Mr. Roshan Wakchaure, final year and Ms. Janhavi Pagar, Third year B Pharma student start program with welcome speech and Sarswati Vandan. Mrs. Vanita Gade, Assistant professor department of pharmaceutical chemistry addressed this session.

The entire program was co-ordinate with the support of the Principal Dr. R. K. Dumbre, HOD (UG) Dr. Swati Deshmukh, Program Coordinator Mrs. Vanita Gade, teaching and non-teaching staff and PhD research scholar, B Pharm and M Pharm Students.

Feedback form delegates about session was very appreciable.

### WEBINAR ON ECOFRIENDLY TECHNIQUES USING HYDROTROPIC, MIXED HYDROTROPIC AND MIXED SOLVENCY CONCEPT

Academic year 2021-22

**DATE:** 11.04.2022

**VENUE:** Google meet (Virtual mode)

#### OBJECTIVE:

1. The purpose of this webinar was to introduce students and Pharma stakeholders to the most important conceptual approaches of research with ecofriendly techniques as well as different concept of hydrotropic, mixed hydrotropic and solvency concept.
2. To explore the theoretical framework of the topic.

#### DESCRIPTION:

Siddhant College of Pharmacy has organized webinar on “Ecofriendly Techniques Using Hydrotropic, Mixed Hydrotropic and Mixed Solvency Concept” on 11th April 2021, delivered by guest speaker **Dr. R. K. Maheshwari, Professor Pharmacy Department, S.G.S.I. T. S. Indore, MP.** This webinar design for faculty members, research scholar, B. Pharm and M. Pharm students. Mixed Hydrotropic solubilization technique is the phenomenon to increase the solubility of poorly water-soluble drugs, using blends of hydrotropism. This technique can provide additive or synergistic enhancement effect on solubility of poorly water-soluble drugs. Utilization of this method in the formulation of dosage forms made of water insoluble drugs can also reduce the concentration of individual hydrotropic agents, in order to minimize the side

### INDUSRTY- INSTITUTION EXPERT LECTURE SERIES 2

**DATE:** 12/02/2022

**VENUE:** Online mode (Google Meet)

#### **OBJECTIVES:**

1. For pharmaceutical companies, IPR is a prerequisite for identifying, planning, commercializing, and protecting the inventions.
2. They also encourage healthy competition, which promotes industrial development and economic growth.

#### **MAIN REPORT:**

The "INDUSRTY- INSTITUTION EXPERT LECTURE SERIES 2" was organized for Third Year & Final Year B. Pharm students on 12/02/2022 by Alumni in charge, Ms. Shubhangi Thopate and TPC Coordinator, Ms. Pooja Jadhav.

A webinar on Application of IPR (Patent) in Pharmaceutical Industry was conducted at Siddhant College of Pharmacy on 12/02/2022. The Webinar was organized by collaboration with Alumni & TPC Department. Over 80 participants attended the Webinar through online mode through Google Meet. Participants were welcomed by Mr. Mayur Kardile at 3.00 pm, followed by initial remarks from Dr.R.K.Dumbre, Principal. The webinar was inaugurated by our HOD (UG) Dr.Swati Deshmukh at 3.10 am with inaugural address. During his inaugural address Dr.Swati Deshmukh stressed the importance of IPR and its relevance in these times and its necessity for the advancement in research and development in India. Background of the webinar and introduction of first speaker was given by Ms.Pooja Jadhav.

The lecture started with an introduction to Intellectual Property Laws and spanned across the different disciplines related to IPR. He pointed out that IPR is no more confined to the legal fraternity, but has spread across all disciplines because of which it has an impact and significance on arts, science, commerce, management and business. Patents copyright and trademarks have great significance not only in the uplifting the knowledge economy but also in fine-tuning it. He elucidated the meaning of intellectual use of traditional knowledge with an example of basmati rice case of 1997. He recalled the 1980's IPR laws in India.

He gave an overview on the importance of legislation in the field of science and arts community, how innovation comes with different disciplines with collaboration research, marketing innovations etc. He explained how to file a patent in India itself with respect to life science, biotechnology, computer science and physical sciences and also in the context of collaboration research. He discussed on different aspects of intellectual properties like industrial design, geographical indication, trade secret, protection of farmers' rights and researchers' rights. He concluded the talk by explaining the rationale of protection and the nature of IPR. He emphasized that IPR has to be renewed from time to time for keeping them in force except in case of copyright and trade secrets.

This session went up to 4.30 pm followed by 10 minutes of interaction with participants. Speaker was impressed with the query of one of the participant on plagiarism and he gave the tips to reduce plagiarism while writing thesis and research articles.

The webinar was concluded at 4.45 pm by a vote of thanks by Ms. Shubhangi Thopate. The Webinar was highly informative to students and teachers. Thus webinar provided valuable awareness and insights on the various aspects of IPR. Appreciation Certificate was given to speaker. Feedback link shared to students and webinar feedback was collected by online mode.

Hi,

It is my pleasure to introduce Rubicon; Rubicon was incepted with a dream of a world where every youth has the power to transform lives for themselves and others around them. We strongly believe that every youth has the potential to make a difference in their personal lives as well as the community around them. We build competencies, which would help youth seek careers and prosper in their career of choice. We bring excitement into learning by developing and harnessing, their curiosity and intrinsic motivation for learning.

Rubicon's "Connect with Work" Program, supported by Barclays aims at improving the employability skills of the youth. Under this program students will be trained by Corporate Trainers to enhance their Soft skills which would help them significantly to increase their chance of succeeding in a job interview. This Program is being launched with limited no of colleges in India.

We are looking forward to partner with your institute and plan to run the below initiative:

Industry visit of students to Barclays office in Pune where the students will interact with employees of Barclays and can get their queries answered on career options and career growth as well as the latest trends in the industry. It will be a two hour session.

In the Life Skills training, we will be covering the below topics:

1. Organizational Structure
2. Public Speaking
3. Presentation Skills
4. E-mail Etiquette
5. Grooming
6. Group Discussion
7. Personal Interview
8. Assessment will be conducted on Group Discussion and Personal Interview.

Note: We would like to clarify that neither the student nor the college is required to pay anything for this program.

Please reply as early as possible, and send the list of students as well(one batch of 15 students) .Please feel free to revert for any more details.

Regards,
