Industry- Institution Expert Lecture Series-1

DATE: 14/09/2022

VENUE: Seminar hall, SCOP

No. Of students present: 98

OBJECTIVE:

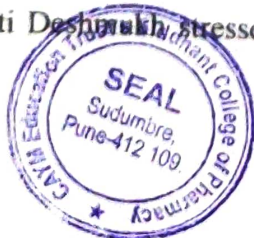

1. To provide insights on clinical research and its associated domain.
2. Importance and recent advancement in clinical research.

OUTCOME: Clinical research is to develop knowledge that improves human health or increases understanding of human biology.

SUMMARY REPORT:

The “**INDUSTRY INSTITUTION EXPERT LECTURE SERIES**” was organized for Third Year & Final Year B. Pharm students on 14/09/2022 by Alumni in charge, Ms. Shubhangi Thopate and TPC Coordinator, Ms. Pooja Jadhav.

A seminar on “Career prospect in Clinical Research” was conducted at Siddhant College of Pharmacy on 14/09/2022. The seminar was organized by collaboration with Alumni & TPC Department. Over 98 participants attended the seminar. Participants were welcomed by Honorable speaker Mr. Tanmay Gawade sir (Clinical Data Manager) at 11.00 PM, followed by initial remarks from Dr.R.K.Dumbre, Principal. The seminar was inaugurated by our HOD (UG) Dr.Swati Deshmukh at 11.10 PM with inaugural address. During his inaugural address Dr.Swati Deshmukh stressed the importance of carrier in Pharmaceutical Industry and its

PRINCIPAL
SIDDHANT COLLEGE OF PHARMACY,
SUDUMBRE, PUNE-412 109

relevance in these times and its necessity for the advancement in research and development in India and branches in pharma industry. Background of the seminar and introduction of first speaker was given by Ms. Shubhangi Thopate.

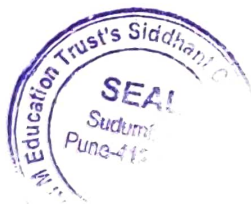

The lecture started with an introduction of clinical trails and carrier opportunity in Clinical trails. He focuses to provide information on the functional domains and scope of Clinical trails. He also presented summarized information about application of phases of clinical trails advantages and recent.

The seminar provided valuable awareness and insights on the various aspect of carrier. At the end of the session speaker share PPT with students and then Ms. Pooja Jadhav gave votes of thanks. Appreciation Certificate was gave to speaker. Feedback link share to students and seminar feedback was collected by online mode (Vmedulife).

About Siddhant College of Pharmacy (SCOP), Sudumbre, Pune, M.S.

Siddhant College of Pharmacy (SCOP) is right choice for your important step of graduation and post- graduation education and you will never regret it. You will learn the science of pharmacy and along with it you will become a trustworthy Professional that nation needs. The teaching learning process at Siddhant college of Pharmacy emphasizes on personalized attention where students of all socioeconomic backgrounds feel comfortable. Students at Siddhant enjoy the process of graduation and are highly motivated. Systems are designed to encourage active involvement for developing and expressing the curious and creative minds. Along with graduation we emphasize on development of personality and right attitude as a Professional. We treat our student as professional right from day one and mold them to utilize their optimum potential to quench the requirement of nation. We are reputed for excellent results and best placement of our students in the field of industry, marketing and research. We have excellent research facilities where we have tie-up with industries. We have highly qualified team of faculty with four doctorates and other persuading doctorates to meet the need of higher education.

About Ateos Foundation of Science Education and Research (AFSER), Kondhwa Bk, Pune, M.S.

AFSER has all the statutory and mandatory approvals from Govt of India. AFSER has objectives to promote Science research, education, training, and development activity for skilled Indian youths and worldwide in fields of Pharmacy, Engineering, Science, Medical, Dental Sciences. It aims to fill the gap between educational needs and actual practical approach of the students of science streams of all kinds, towards the society. Also, it promotes/ conducts various philanthropic online and offline programs. AFSER has partially sponsored SCOP to conduct 2- Days Webinar on "Recent Advances in Pharmaceutical, Biological and Chemical Sciences" on 15th -16th Oct 2022.

About Conference "2- Days Webinar on "Recent Advances in Pharmaceutical, Biological and Chemical Sciences" on 15th -16th Oct 2022"

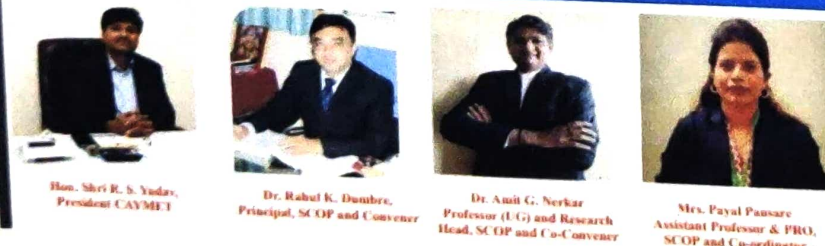

The conference shall inter alia highlight the significance of recent advances in Pharmaceutical, Biological and Chemical Sciences.

Introduction and Scope

Introduction and Scope

- Pharmaceutical Sciences or Pharmacy** is the clinical health science that links medical science with chemistry and it is charged with the discovery, production, disposal, safe and effective use, and control of medications and drugs. The practice of pharmacy requires excellent knowledge of drugs, their mechanism of action, side effects, interactions, mobility and toxicity. At the same time, it requires knowledge of treatment and understanding of the pathological process. Some specialties of pharmacists, such as that of clinical pharmacists, require other skills, e.g. knowledge about the acquisition and evaluation of physical and laboratory data. The scope of pharmacy practice includes more traditional roles such as compounding and dispensing of medications, and it also includes more modern services related to health care, including clinical services, reviewing medications for safety and efficacy, and providing drug information. Pharmacists, therefore, are the experts on drug therapy and are the primary health professionals who optimize the use of medication for the benefit of the patients. A profession in which pharmacy (in the first sense) is practiced is called a pharmacy (this term is more common in the United States) or a chemist's (which is more common in Great Britain, though pharmacy is also used). In the United States and Canada, drugstores commonly sell medicines, as well as miscellaneous items such as confectionery, cosmetics, office supplies, toys, hair care products and magazines, and occasionally refreshments and groceries. In its investigation of herbal and chemical ingredients, the work of the apothecary may be regarded as a precursor of the modern sciences of chemistry and pharmacology, prior to the formulation of the scientific method.
- Chemistry or chemical sciences** is the scientific study of the properties and behavior of matter. It is a natural science that covers the elements that make up matter to the compounds, composed of atoms, molecules and ions; their composition, structure, properties, behavior and the changes they undergo during a chemical reaction with other substances. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it provides a foundation for understanding both basic and applied scientific disciplines at a fundamental level. For example, chemistry explains aspects of plant growth (botany), the formation of igneous rocks (geology), how atmospheric ozone is formed and how environmental pollutants are degraded (ecology), the properties of the soil on the moon (cosmochemistry), how medications work (pharmacology), and how to collect DNA evidence at a crime scene (forensics). Chemistry addresses topics such as how atoms and molecules interact via chemical bonds to form new chemical compounds. There are two types of chemical bonds: 1. primary chemical bonds—e.g. covalent bonds, in which atoms share one or more electrons; ionic bonds, in which an atom donates one or more electrons to another atom to produce ions (cations and anions); metallic bonds—and 2. secondary chemical bonds—e.g. hydrogen bonds, Van der Waals force bonds, ion-ion interaction, ion-dipole interaction.
- Biological Sciences or Biology** is the scientific study of life. It is a natural science with a broad scope but has several unifying themes that tie it together as a single coherent field. For instance, all organisms are made up of cells that process hereditary information encoded in genes, which can be transmitted to future generations. Another major theme is evolution, which explains the unity and diversity of life. Energy processing is also important to life as it allows organisms to move, grow, and reproduce. Finally, all organisms are able to regulate their own internal environments. Biologists are able to study life at multiple levels of organization, from the molecular biology of a cell to the anatomy and physiology of plants and animals, and evolution of populations. Hence, there are multiple subdisciplines within biology, each defined by the nature of their research questions and the tools that they use. Like other scientists, biologists use the scientific method to make observations, pose questions, generate hypotheses, perform experiments, and form conclusions about the world around them.

HIGHER EDUCATIONAL OPPORTUNITIES AFTER B. PHARMACY REPORT.

On Friday, 3rd August 2018, the department of Training and Placement of Siddhant College of Pharmacy had organized one day training program by Director ELITE Institute of Pharma Skills for final Year students of SCOP, Mrs. Archana Gawade and Mrs Ashlesha Sangmuly were the resource persons for this training program.

During the formal inaugural session, Prof. Tushar B. Salunke, Chief Coordinator Dept of Training and Placement welcome the gathering and also introduced resource persons to the students. While addressing students, Prof. Dr. Rahul Dumbare(Principal SCOP) focused on the effort of Management and college administration for providing state-of-the art facilities to the students of SCOP. Adding to it, Principal stressed the importance of such training programs and also assured that many more quality program will be introduced in the day coming for the preparing students to face the interviews. Also he announced that the placement team of the college will have students representation too so that the future programs can be organized as per the need of the students.

After a B.Pharm in pharmacy there are various opportunities for students, they can either go for higher studies like M.Pharm, MBA. or Ph.D degrees for improving their skills and up gradation of their degree or they can go for jobs in the chemical companies, research institutes ,Pharma companies ,even universities and colleges.

- Overseas career: Some of the B.Pharm graduates are choosing to fly overseas and make their career bright. By scoring well in GRE, TOEFL, IELTS etc entrances they can pursue M.S, MBA and other pharmacy related courses in US, UK, Australia etc.
- M.Pharm is master degree of pharmacy in various branches or subjects like pharmaceuticals, pharmacology, pharmacognosy, pharmaceutical/medicinal chemistry, pharmaceutical marketing, pharmacy practice, quality assurance, ph. technology, ph.

PRINCIPAL
SIDDHANT COLLEGE OF PHARMACY,
SUDUMBRE, PUNE-412 109

administration, ph. science, Bulk drug Tech, Industrial Pharmacy, pharmaceutical analysis, pharmaceutical biotechnology. All the branches are distinct and have rejoicing scope. Many industries are reliance on master students than bachelors as they are specialized in particular branch with better knowledge. GATE-PY is discontinued from 2010, so it may effect some academically good students but still some good universities have their own enterances.

- Pharm.D is brand new option for graduates in India. It is total 3 years course out of which 2 years of academics and 1 year of training in hospital. Then, appear for NAPLEX and one can registered as pharmacist in most of the countries. It involves all the aspects of clinical pharmacology and drug administration covering chiefly drug interactions and adverse effects. It will going to prove more ascent to pharmacist.
- Marketing: There is a big scope in sales dept of pharmaceutical companies making tools and machines for research, these companies hire graduates for their marketing and sales as MR, project managers etc. Here salary ranges from 7-20 thousand. Pharmaceutical MBA is most heyday in this field.
- Clinical research: Recently, Clinical research has also open its door for B.Pharm graduates as medical underwriter, CRO, data validation associate, clinical research associate etc.
- Production: Large rate of vacancies are appearing in pharma industries for production. All the big firms invite suitable skill pharma individual in manufacturing units. Initial pay is less around 6000-10000 per month but later it show faster growth rate than any other line. Manufacture of pharmaceuticals involve all the drugs in different dosage forms and cosmetics.
- Quality control: Some government jobs like government analysis is associated with it. They have to develop, apply, revise, and maintain quality standards for processing materials into partially finished or finished products. Helps in designing and implementing methods and procedures for inspecting, testing, and evaluating the precision and accuracy of products and prepares documentation for inspection testing procedures.
- Scientists: Pharma graduates can absorb as scientist in R&D and F&D. It is field of innovation where talented people in pharmacy working as scientist. Numerous researches are going on in India though compare to less than US and other British

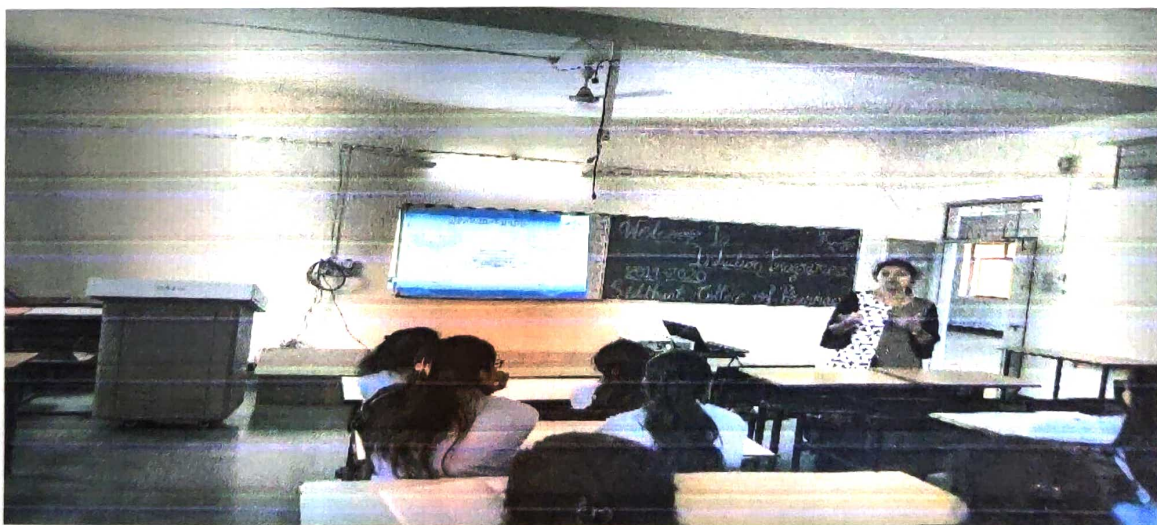

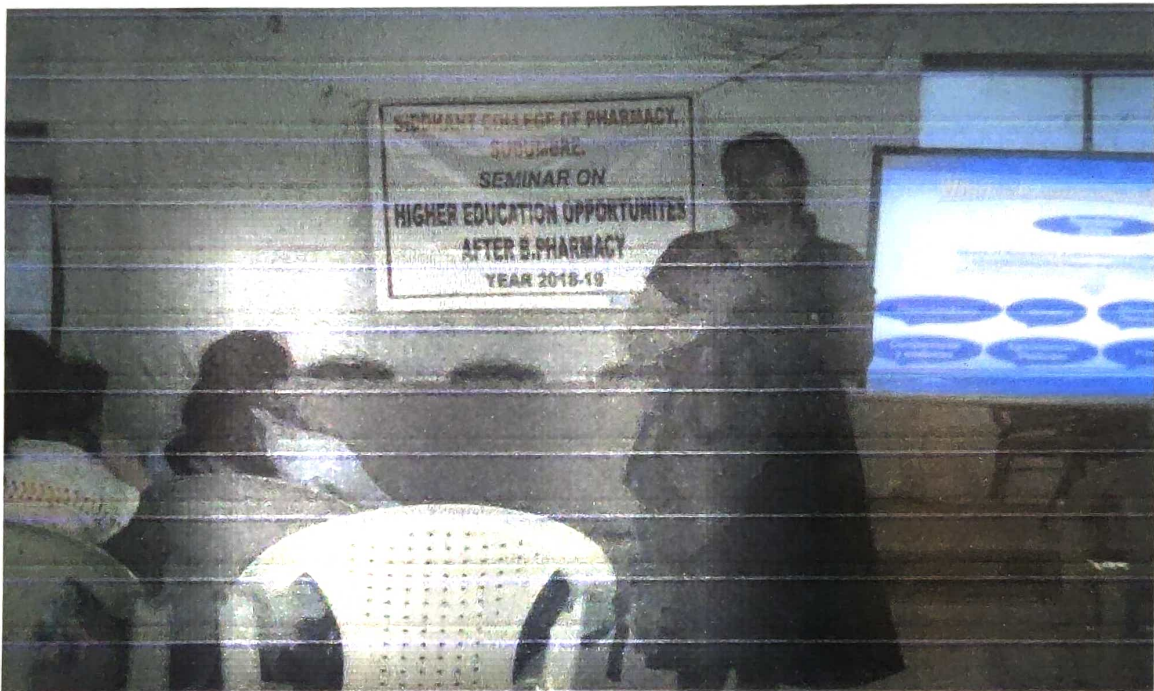

ro
PRINCIPAL
SIDDHANT COLLEGE OF PHARMACY
SUDUMBRE, PUNE-412 109

industries. Very less candidate from B.Pharm are selected because lack of knowledge but those who have all ideas of subject are greeted in this field.

- Lecturer: Usually, graduates in pharmacy can also make their career in academics. In some institutions they are eligible to work as lecturer for diploma students.

Afterward, there was an interactive session, where he invited questions and responded to them in a lively and humorous manner. The Session ended with the vote of thanks that was given by Prof. Rani Divekar.

CAMPUS PLACEMENT DRIVE

DATE: 03/06/2022

VENUE: Siddhant College of Pharmacy.

OBJECTIVES:

- To provide career guidance about avenues open after graduation. ie. Higher education, placements or entrepreneurship
- To provide recruitment to students.
- To provide exposure to Pharmacy pursuing students.
- To have good relations with the recruiters.
- Managing Recruiters correspondence and feedback's.
- Organizing Pre- Placement Training's.
- Providing Training & Placement process awareness to first year students.
- Planning and organizing various Placement drives in campus.
- Finding, informing and managing Pool Placements drives.
- To build the bridge between industry and academia.

SUMMARY REPORT:

Siddhant college of Pharmacy in collaboration with KEM Hospital has conducted Campus Placement drive on 03rd June 2022 in Siddhant college of Pharmacy, Sudumbare. They organised Placement for designation of Hospital Pharmacist. The programme was coordinated by Ms. Pooja Jadhav & Trupti Kajale and the activity begins with the floral welcome of team KEM by Principal Dr. R.K. Dumbre Sir followed by the brief introduction of KEM Team. The HR Mr. Ardeshir Baria and Ms. Ananya Mam of KEM had

Dr.
PRINCIPAL
SIDDHANT COLLEGE OF PHARMACY,
SUDUMBARE, PUNE-412 109

given the presentation on detailed knowledge of KEM Hospital . Panel of two members, HR Mr.Ardeshir Baria and Ms.Ananya Mam came for searching suitable talent by conducting student interviews for hospital Pharmacist.The selection process comprises of group discussion, Technical round and HR Interview and shortlisted students then will called for personal interview at KEM . Around 19 students participated in the campus interview drive, 12 students qualified aptitude test. Qualified students were then interviewed, results were declared after the interview round was completed. Five students were shortlisted by the HR team & shortlisted students called for personal interview in KEM hospital students. Programme was concluded by giving bouquets Appreciation Certificate and Monuments as token of appreciation and respect to the panel members. Panel members were very keen in conducting Campus recruitment drive next year also and they make MoU with our College. Our Principal Dr. R.K.Dumbre sir and HOD (UG) Dr.Swati Deshmukh mam motivated & supported in every aspect for the successful conduction of this campus drive & quoted how such programes were essential for boosting the confidence of students.

SUMMARY REPORT

INDUSRTY VISIT :-2021-22

DATE: 22/3/2022

OBJECTIVES:

1. To improve interest of student's in production area.
2. To study various units of industry.

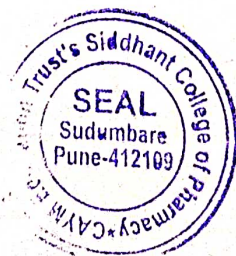

SUMMARY:

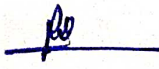

The "INDUSTRY VISIT 2021-22" was organized for Second Year B.Pharm students on 24/01/2022 by academic in charge, Mrs. Swati Jogdand and TPC Coordinator, Ms.Pooja Jadhav.

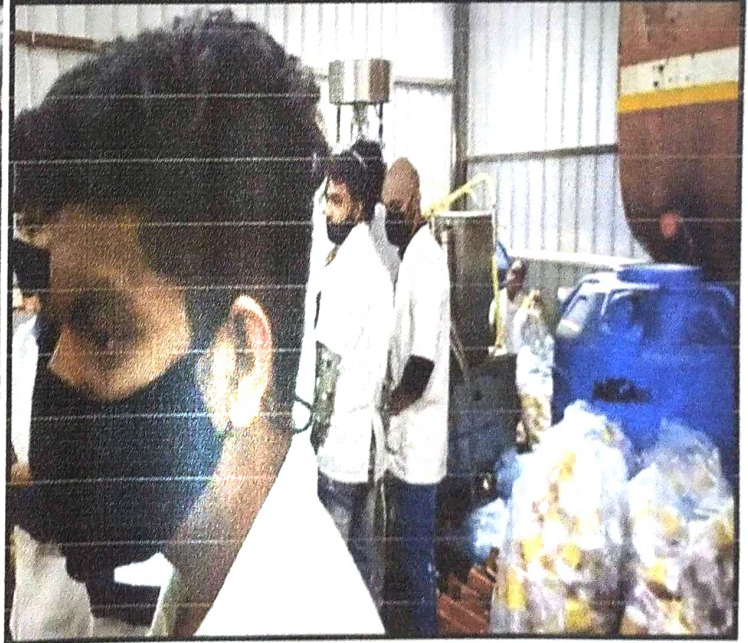

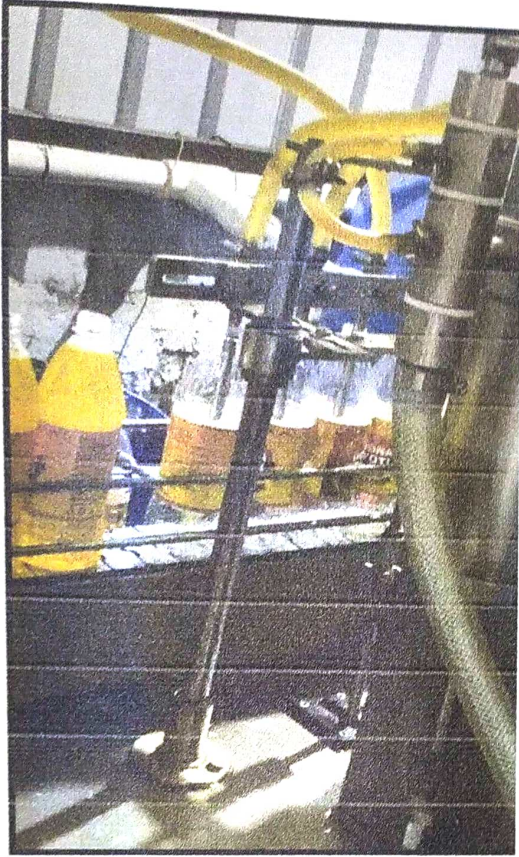

51 Second year students of B Pharmacy of Siddhant College of Pharmacy, Sudumbare and 5 staff members visited Oil Factory, Handewadi, Pune. During this visit, students interacted with the Director very effectively. Particularly about the raw materials & their identification, isolation & Storage. He explained how to separate the oil & how to prepare diya oil. We organised this visit to improve interest of students in production area.

Vote of thanks was given by TPC in charge Ms.Pooja Jadhav.

SEMINAR ON " NANOREACTORS AND THEIR ROLE IN CHEMISTRY "

DATE : 19 JULY 2023.

VENUE: SIDDHANT COLLEGE OF PHARMACY.

OBJECTIVE:

1. To achieve brief account on Nanoreactors .
2. To provide comprehensive overview of the Nanoreactors and their role in chemistry .

DESCRIPTION:

Siddhant College of Pharmacy successfully organized Seminar on " Nanoreactors and their role in chemistry "at 19 July 2023 at 11.00am.Seminar is delivered by our speaker Mrs. Jyoti Kadam she discusses complete all about the nanoreactors and their role in chemistry . The entire session was an interactive session, 30 participants were participated and the speakers answered many queries raised by the participants.

On the inaugural function, Mr. Jaydeep Vaishnav , final year and Ms. Yewale Shrushti , Third year B Pharma student start program with welcome speech and Sarswati Vandan. Mrs. Vanita Gade, Assistant Professor department of pharmaceutical chemistry addressed this session. The entire program was co-ordinate with the support of the Principal Dr. R. K Dumbre, HOD (UG) Dr. Swati Deshmukh, Program Coordinator Mrs. Vanita Gade, teaching staff and B pharm Students.

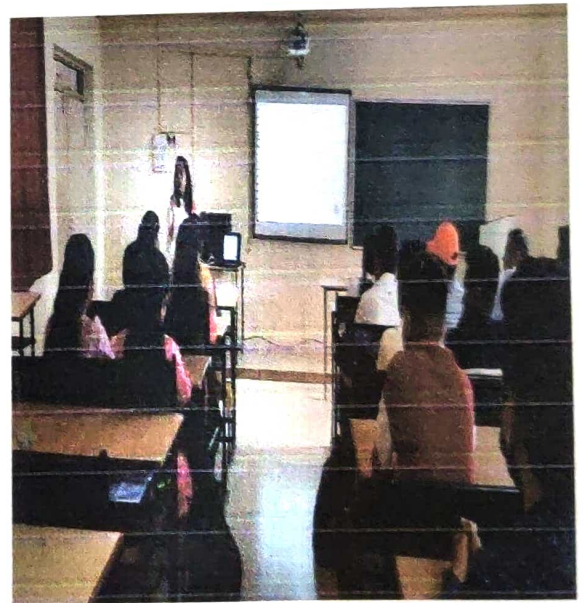

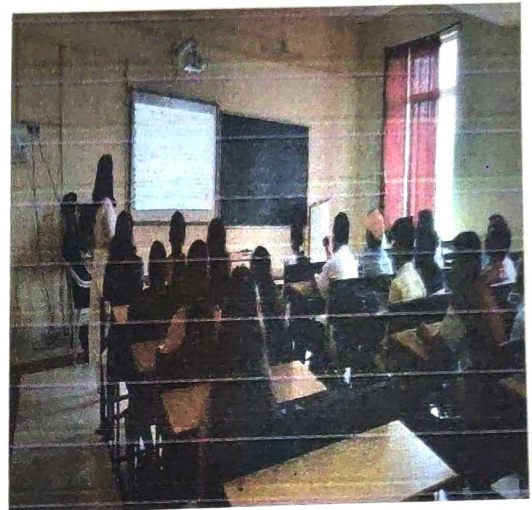

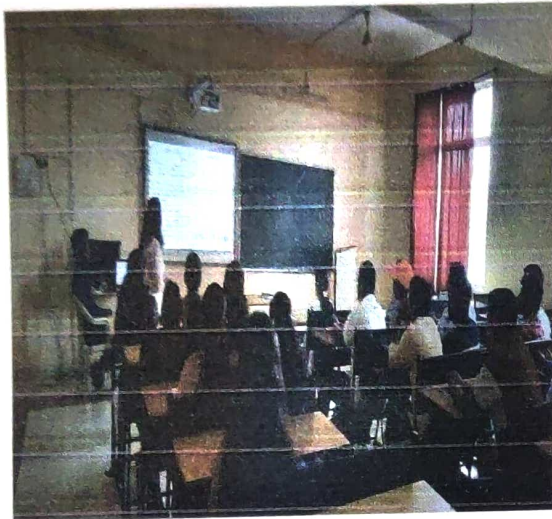

Feedback form delegates about session was very appreciable.

YOG SADHANA AND HEALTH

DATE: 10/01/2022

VENUE: Online mode (Google Meet OR Zoom)

OBJECTIVES:

1. To enable student to understand the history of yoga and its current status in modern society
2. To acquaint student with the practical knowledge of preparatory poses, asana, breathing exercises and introduction to Pranayama
3. To introduce students to diet concepts in yoga 4. To introduce students to ashtanga yoga of Patanjali muni.
4. It contribute towards creating awareness among everyone about this old Indian tradition that helps in transforming body and mind and promoting well being of the society.

MAIN DESCRIPTION:

The “YOG SADHANA AND HEALTH” was organized for Second Year B. Pharm students on 10/01/2022 by Training and Placement Co-ordinator, Ms. Pooja Jadhav and TPC member Mrs. Trupti Kajale.

A 30 hours Value added Yoga course on “Yog Sadhana and Health” was conducted at Siddhant College of Pharmacy on 10/01/2022. The course was organized by TPC Department. Over 40-50 participants are daily attended the Webinar through online mode through Google Meet or Zoom. Mrs.Anuradha Kardile were welcomed by Ms.Janvi Pagare at 11.30 am, followed by initial remarks from Dr R.K. Dumbre, Principal. The course was inaugurated by

PO
PRINCIPAL
SIDDHANT COLLEGE OF PHARMACY,
SUDUMBARE, PUNE-412 109

our HOD (UG) Dr.Swati Deshmukh at 11.40 am with inaugural address. During his inaugural address Dr.Swati Deshmukh stressed the importance of Yoga and its relevance in these times and its necessity for the self discipline and self-control and self development. Yoga techniques provide improved attention in studies, better stamina and co-ordination for sports and a heightened awareness and balanced attitude for social activity.

She gave an overview on the importance of Yoga and very important aspect of peaceful living is covered. Important Yoga philosophies and Yoga Sutras how to use in daily life was taught. The study help you to learn different ways to tackle and deal with stress and other commonplace ailments.

One of the main goals of a good yoga class is to create a well-rounded journey for students mam that starts with warming up the body and gradually moves towards more challenging poses. Mam teaches how to sequence poses in a way that benefits the students. Students also learn about anatomy. In order to teach safe and effective yoga classes, it is important for teachers to have knowledge of human anatomy. Yoga teacher training provides you with this information. Students learn about meditation and mindfulness. Meditation and mindfulness are two key components of a yoga practice that can offer benefits beyond the mat.

This session went up to 30 hrs followed by 30 days daily interaction with participants. Yoga teacher gave assignments to students. Yoga teachers was impressed with the daily practice and well performance by Students in online classes.

This yoga course was concluded by taking Theory and Practical Exam for 100 marks ,Theory paper was taken, checked and evaluated and Practical was evaluated by daily attendance and daily performance of students and only those students had get certificate those who had present and gave the exam and assignments. The course was highly informative and good for health to students . Thus course provided valuable awareness and insights on the various aspects of Yoga. Appreciation Certificate was given to speaker. Feedback link share to students and course feedback was collected by online mode.

TISS GUIDANCE SESSION

DATE: 10th March 2022

VENUE: Siddhant College of Pharmacy, Pune

OBJECTIVE:

1. Challenge to demonstrate models that focus on skilling people with varying educational qualifications
2. Increasing the employability of University students by imparting knowledge and skills, through cutting edge teaching and learning methods

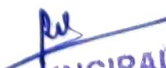

MAIN REPORT:

Siddhant College of Pharmacy, Pune organized a Orientation session on 'TISS Course in Management & Soft Skills Development' on 30th December 2021 at 11.00am for the Third year B.Pharm Students.

The college collaborated with Tata Institute of Social Science for conducting Skill Development Courses for the students of Third Year Degree Students. Tata Institute of Social Sciences (TISS) has embarked on an innovative skill development programme for University students. TISS has taken up the challenge to demonstrate models on skilling people with varying educational qualifications (including illiterates whose skills have been rendered redundant in the new economic context). The Institute believes that the current framework that differentiates education (offered by schools and universities) and vocational skills (offered outside the school and University system) is not serving a large majority of the people, and those receive education from the formal system are not skilled enough to gain productive employment. This course organized Mr.K.Srinu Sir. Total 61 Students were benefit this course.

The vote of thanks was delivered by the TPC Coordinator Ms.Pooja Jadhav.

HIGHER EDUCATIONAL OPPORTUNITIES AFTER B. PHARMACY REPORT.

On Friday, 3rd August 2018, the department of Training and Placement of Siddhant College of Pharmacy had organized one day training program by Director ELITE Institute of Pharma Skills for final Year students of SCOP. Mrs. Archana Gawade and Mrs Ashlesha Sangmuly were the resource persons for this training program.

During the formal inaugural session, Prof. Tushar B. Salunke, Chief Coordinator Dept of Training and Placement welcome the gathering and also introduced resource persons to the students. While addressing students, Prof. Dr. Rahul Dumbare(Principal SCOP) focused on the effort of Management and college administration for providing state-of-the art facilities to the students of SCOP. Adding to it, Principal stressed the importance of such training programs and also assured that many more quality program will be introduced in the day coming for the preparing students to face the interviews. Also he announced that the placement team of the college will have students representation too so that the future programs can be organized as per the need of the students.

After a B.Pharm in pharmacy there are various opportunities for students, they can either go for higher studies like M.Pharm, MBA. or Ph.D degrees for improving their skills and up gradation of their degree or they can go for jobs in the chemical companies, research institutes ,Pharma companies ,even universities and colleges.

- Overseas career: Some of the B.Pharm graduates are choosing to fly overseas and make their career bright. By scoring well in GRE, TOEFL, IELTS etc entrances they can pursue M.S, MBA and other pharmacy related courses in US, UK, Australia etc.
- M.Pharm is master degree of pharmacy in various branches or subjects like pharmaceuticals, pharmacology, pharmacognosy, pharmaceutical/medicinal chemistry, pharmaceutical marketing, pharmacy practice, quality assurance, ph. technology, ph.

PRINCIPAL
SIDDHANT COLLEGE OF PHARMACY,
SUDUMBRE, PUNE-412 109

administration, ph. science, Bulk drug Tech, Industrial Pharmacy, pharmaceutical analysis, pharmaceutical biotechnology. All the branches are distinct and have rejoicing scope. Many industries are reliance on master students than bachelors as they are specialized in particular branch with better knowledge. GATE-PY is discontinued from 2010, so it may effect some academically good students but still some good universities have their own entrances.

- Pharm.D is brand new option for graduates in India. It is total 3 years course out of which 2 years of academics and 1 year of training in hospital. Then, appear for NAPLEX and one can registered as pharmacist in most of the countries. It involves all the aspects of clinical pharmacology and drug administration covering chiefly drug interactions and adverse effects. It will going to prove more ascent to pharmacist.
- Marketing: There is a big scope in sales dept of pharmaceutical companies making tools and machines for research, these companies hire graduates for their marketing and sales as MR, project managers etc. Here salary ranges from 7-20 thousand. Pharmaceutical MBA is most heyday in this field.
- Clinical research: Recently, Clinical research has also open its door for B.Pharm graduates as medical underwriter, CRO, data validation associate, clinical research associate etc.
- Production: Large rate of vacancies are appearing in pharma industries for production. All the big firms invite suitable skill pharma individual in manufacturing units. Initial pay is less around 6000-10000 per month but later it show faster growth rate than any other line. Manufacture of pharmaceuticals involve all the drugs in different dosage forms and cosmetics.
- Quality control: Some government jobs like government analysis is associated with it. They have to develop, apply, revise, and maintain quality standards for processing materials into partially finished or finished products. Helps in designing and implementing methods and procedures for inspecting, testing, and evaluating the precision and accuracy of products and prepares documentation for inspection testing procedures.
- Scientists: Pharma graduates can absorb as scientist in R&D and F&D. It is field of innovation where talented people in pharmacy working as scientist. Numerous researches are going on in India though compare to less than US and other British

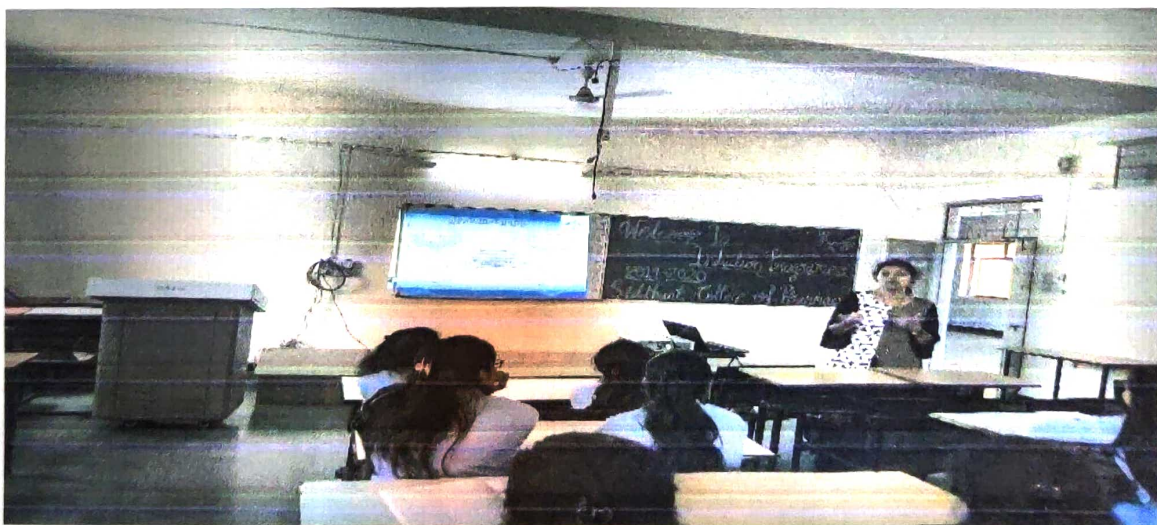

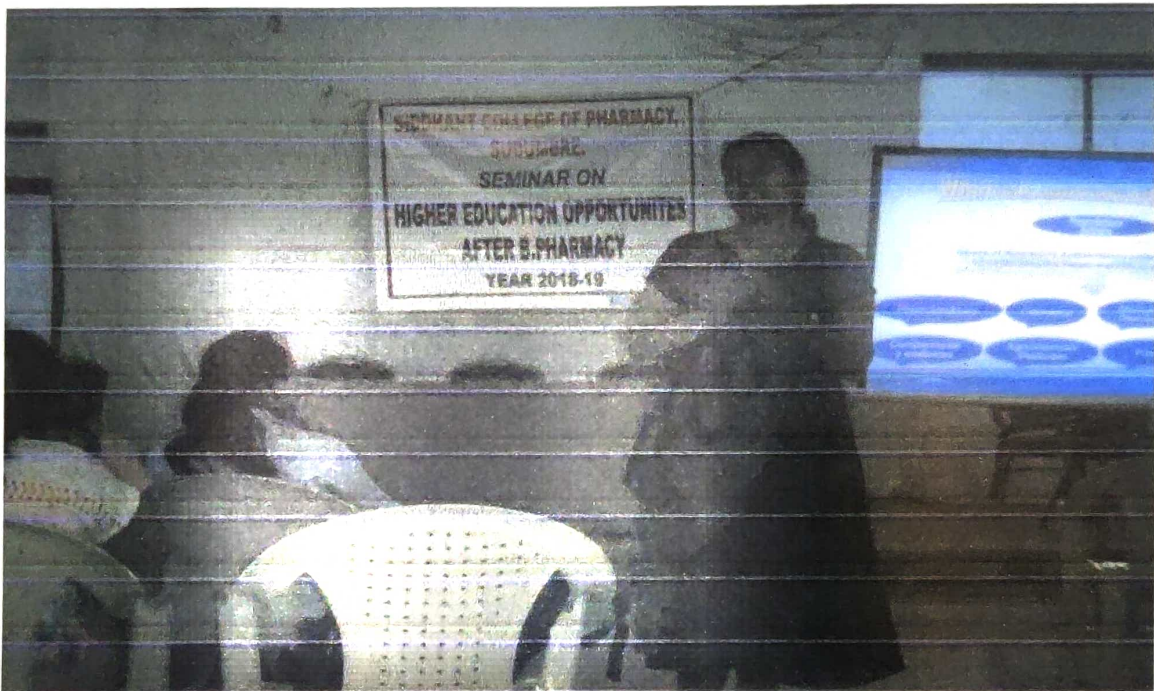

ro
PRINCIPAL
SIDDHANT COLLEGE OF PHARMACY
SUDUMBRE, PUNE-412 109

industries. Very less candidate from B.Pharm are selected because lack of knowledge but those who have all ideas of subject are greeted in this field.

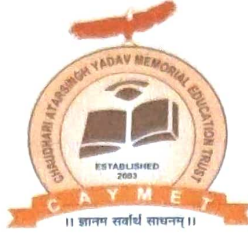

- Lecturer: Usually, graduates in pharmacy can also make their career in academics. In some institutions they are eligible to work as lecturer for diploma students.

Afterward, there was an interactive session, where he invited questions and responded to them in a lively and humorous manner. The Session ended with the vote of thanks that was given by Prof. Rani Divekar.

INDUSTRIAL VISIT

DATE: 25th July 2023

VENUE: Prado Preclinical Research and Development Organization

OBJECTIVE: As a part of Curriculum as per PCI syllabus the objective of an industrial visit is to gain practical knowledge about the industry and the processes involved in it. It helps students to understand the process involved in preclinical research and get an idea to work in the industry. To know how research is conducted in the early stages of drug development. To know how experiments are designed, how data is collected, and how researchers interpret their results.

OUTCOME: The proposed visit will help students in better understanding of onsite processes of various concepts. It involves around to the entire industry & show the tasks handled in different departments. This will help to become competent pharmacist.

MAIN DESCRIPTION:

Siddhant College of Pharmacy had organized an industrial visit to PRADO PreClinical Research & Development Organization Pvt Ltd located in Urse, Talegaon on **25th May 2023** for third and final students. Students were exposed to various functional areas of Pharmacology, Toxicology & Analytical laboratories and state of the art Animal Facility. Students were demonstrated with basic understanding of Toxicity Testing (In-Vitro and In-Vivo), Development of Animal Models for Human Diseases, Pharmacokinetic Studies, Biocompatibility Studies and Pathological studies by **Ms. Kanchan Mangale Chief Scientific Officer & Assistant** to Test Facility Management at Prado . It was very informative and learning experience for students and faculty member.

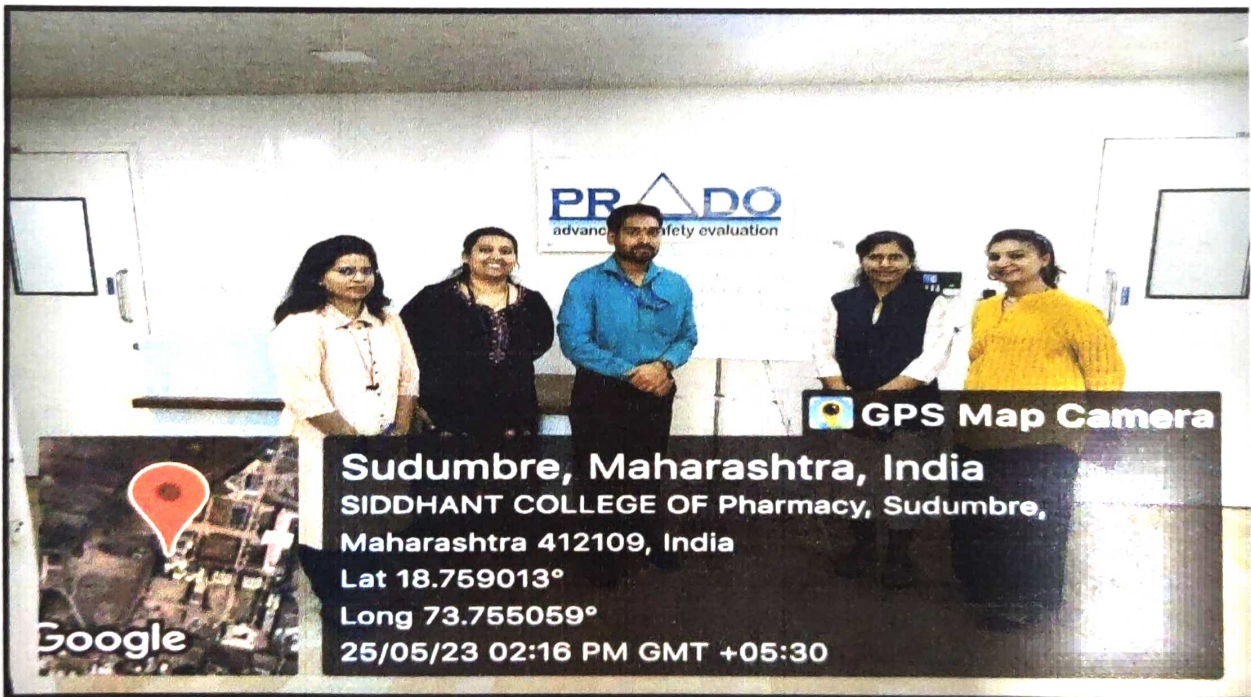

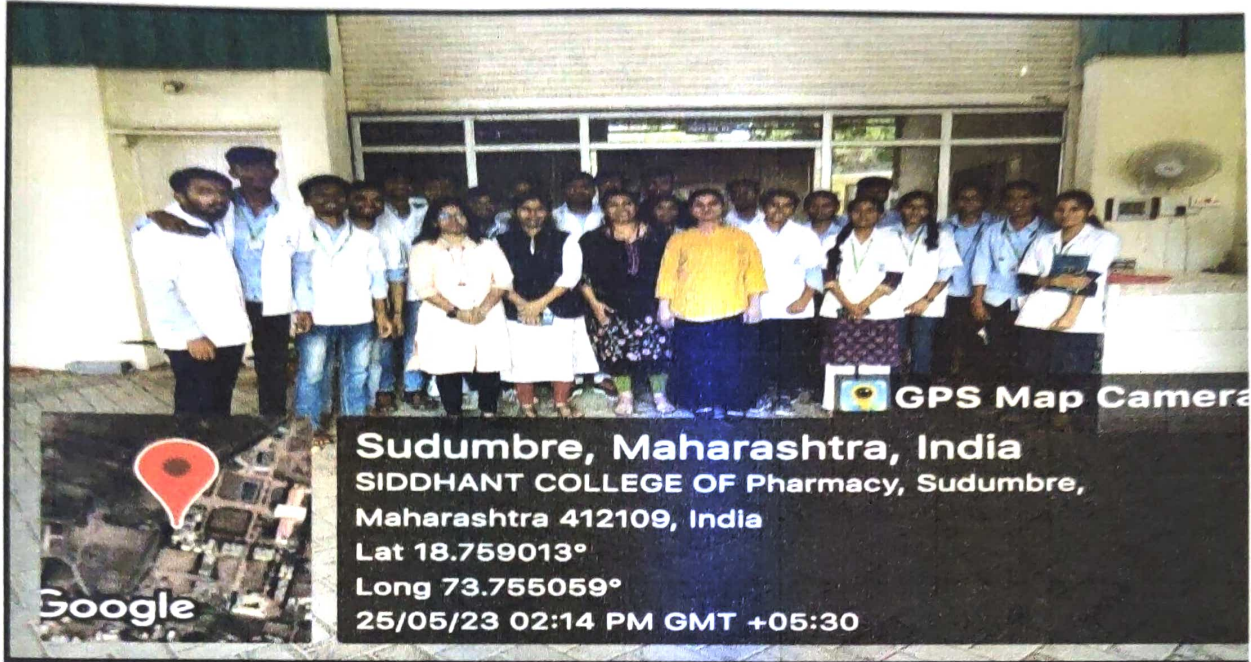

All together 33 students and two staff had visited the industry.

Co-ordinator : Ms.Pooja Jadhav *Pooja*
