SUMMARY REPORT

(SAVE GIRL SAVE CHILD)

DATE: -05/03/2021

VENUE: Virtually conducted due to COVID-19 pandemic situation.

OBJECTIVE: Aim of this session is to generate awareness and improve the efficiency of welfare services intended for girls in India.

SUMMARY: Our speaker Dr. Anjali Bhusare Associate Professor from Chetana Arts Higher College, Aurangabad. she told about save girl child. she told the girl child is an important pillar of a developed society. The movements like bet bachaobetipardhao, girls education, save girl child are of essential importance. Women are considered inferior to men and are treated unfairly. Instead of providing basic rights to women and girls they are degraded, the rate of sexual harassment rape, gender discrimination, female feticide and dowry death is increasing. There is increasing female feticide and girls dropout rate in schools, colleges and universities in many countries. Unfortunately the potential and creative abilities of women and girls are wasted. Due to old dated customs and traditions they are used as tools to cook, wash and do domestic chores. It is very important to equalize women with men, girls with boys. They must be protected, provided basic rights like proper education, proper health care and proper attention. There must be gender equality in the society so that girls get chance to succeed and excel in life. Due to inequality and discrimination girls and women are leading a miserable life. Many countries have taken initiatives and steps running several schemes and movements to save and protect girl child.

Principal
Siddhant College of Pharmacy
Sudumbare, Tal.-Maval,
Dist.-Pune 412109.

Specially in India in 2015 a scheme named as "BetiBachao, BetiPadhao" means save girl child and educate girl child was launched in order to empower girl and to eliminate gender inequality. It is high time to aware people to save girl child. Girl child is entirely unsafe inside and outside the womb of Mother. At last Mrs. Rani Divekar madam say vote of thanks to Dr. Anjali Bhusare madam.

thinking and work to make the world a safer place for women. Women must be taught self-defence techniques.

Our IQAC coordinator Dr. Swati Deshmukh Madam also present for women empowerment, she spoke on the issues related to women safety. Safety of women in India has become a major issue in India now. The crime rates against women in the country have only risen to a great extent. Women think twice before stepping out of their homes, especially at the night. This is, unfortunately, the sad reality of our country that lives in constant fear. Women in India have been given equal rights as men; however, people do not follow this rule. They contribute to the growth and development of our country; still, they are living in fear. Women are now on respected positions in the country, but if we take a look behind the curtains, we see even then they are being exploited. Each day we read about horrific crimes being committed against women in our country like it's a norm.

Not a day goes by where you don't hear of the news of a crime against women in India. In fact, there are at least five news articles that tell us about the horrific details of the various crimes. It is extremely painful to watch the status of women's safety in India, especially in a country where women are given the stature of goddesses. The list of crimes against women is quite long, to say the least. Acid attack is becoming very normal in various parts of the country. The criminal throws acid on the face of the victim to destroy their lives completely. Nonetheless, India has a lot of strong acid attack survivors who are battling for their lives and trying to lead their lives independently.

Furthermore, domestic violence and honor killings are very common. The wife stays in an abusive relationship because of the fear of society. The family kills their daughters in the name of honor to keep up with the reputation of their family. Similarly, female foeticide is yet another common crime. Due to the regressive thinking, people kill daughters before they are born. The list continues as crimes against women are on the rise. Other crimes also include child marriages, child.

At the end mam spoke about Ways to Ensure Women Safety, By Although the list of crimes is very long, we can take measures to ensure women's safety in our country. Firstly, the government must make stringent laws that ensure the punishment of criminals immediately. Fast track courts must be set so the victim gets justice instantly. This will serve as a great example for other men to not commit crimes against women. Most importantly, men must be taught to respect women from an early age. They must consider women as equals so they don't even think of harming them. When you consider someone inferior, you tend to oppress them. If this thinking goes away, half of the crimes will automatically end.

In short, crimes against women are stopping the growth of our country. We must not put the blame on women and ask them to be extra careful. Instead, we must ask the men to change their thinking and work to make the world a safer place for women. Women must be taught self-defence techniques.
