B.What is a gender audit?

Gender Audit is an attempt to study whether the college has a good gender balance. It tries to see whether college follows government rules, policies and actions formulated for up-gradation of women in society. The Gender Audit tries to access the impact of its current and proposed policies on gender equality. Although there is no standard approach for carrying out a gender audit, international organizations use two main approaches: participatory in gender audit and the gender integration framework. A gender audit usually includes two dimensions as follows.

1.An internal audit: This dimension refers to how much an organization fosters gender equality internally within its organizational, managerial structure and internal work and

Dist.-Pune 412109.

whether these contribute to gender equality in the organization. An internal gender audit monitors and assesses the relative progress made in gender mainstreaming, contributes to capacity building and collective organizational ownership for gender equality initiatives, and sharpens organizational learning on gender.

2. An external audit: This dimension aims to assess to what extent, an organization mainstreams gender in its policies, programmes, projects and services in terms of content, delivery and evaluation. External gender audits evaluate to what extent gender integration fosters the inclusion of, and benefits to women and men involved in or affected by the organization's policies, programs, projects or services provided. When applied to policies, programmes, projects or services, a gender audit starts by exploring to what extent gender equality is mainstreamed in high-level policy objectives and priorities, and further assesses to what extent policy intentions are actually carried out in specific initiatives (e.g. programmes, projects, services). At the planning level, a gender audit analyses whether there are gender-specific objectives or if gender is mainstreamed in the general objectives of the policy in order to guarantee that they contribute to close gender gaps, ensure that women and men benefit equally or in accordance with their gender needs and that inequalities are not perpetuated. Similarly, a gender audit goes on to analyze how gender is mainstreamed into the implementation phase of the policy, programme or project. Finally, a gender audit of the monitoring and evaluation phase investigates whether targets and indicators include a gender perspective both in terms of sex-disaggregated data and progress towards gender equality.

D. Objectives of the Gender Audit exercise:

The following are the main objectives of the Gender Audit:

- a) To know about the gender balance in the college.
- b) To know about gender perception in the campus.
- c) To reflect and etch out a road map for gender action.

E. Gender Audit Methods:

The gender audit was conducted within the broad framework called the Gender Integration Framework (GIF), which proposes that transformation can only follow when four organizational dimensions are equipped for gender integration. These four elements are political will, technical capacity, accountability and organizational culture.

The Political Will: Means the initiatives in which the leadership within the college at different levels use their branches of the tree and are also required in equal measure to successfully integrate gender, position of power to communicate and demonstrate their support, leadership,

enthusiasm for and commitment to working toward gender equality in the college.

Technical Capacity: Level of ability, qualifications and skills individuals in an organization need to carry out the practical aspects of gender integration for enhanced program quality, and level of institutionalization of gender equitable organizational processes.

Accountability: Mechanisms by which college determines the extent to which it is "walking the talk" in terms of integrating gender equality in its programs and organizational structures.

Organizational Culture: Norms, customs, beliefs and codes of behavior in an organization that support gender equality - how people relate, what are seen as acceptable ideas, how people are expected to behave and what behaviors are rewarded.

2.GENDER WISE DISTRIBUTION OF STUDENT AND STAFF

Gender balance means the existence of a fair ratio of male and female representation within the institution in terms of number of students in the various programmes as well as within the staff structure. The rationale is that traditionally women have lesser access to resources and opportunities due to the social structures which act as inhibitors to access. This results in lesser capability among women which in turn produces a snowball effect on their empowerment and access to development initiatives.

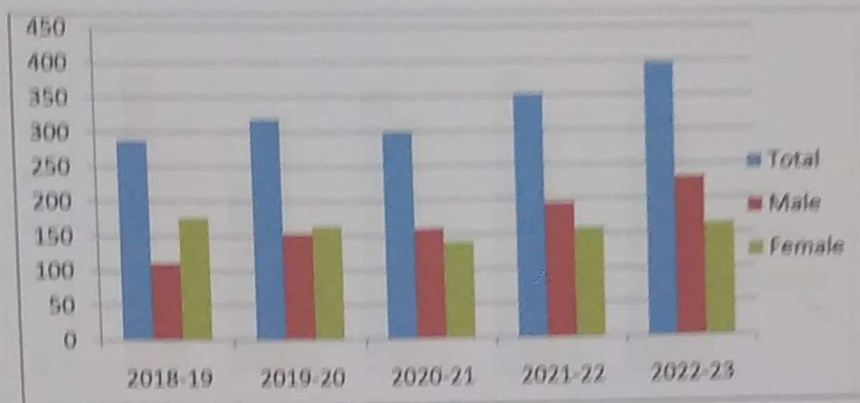

Gender Audit Team reviewed and analyzed the operating environment of Siddhant college of pharmacy ,sudumbre From the analysis, the team understood that the college is operating in an environment where everyone has access to a full range of opportunities to achieve the social, psychological and physical benefits that come from participating and leading in sports and physical activity. Gender equity requires that girls and women be provided with a full range of activity and program choices that meet their needs, interests and experiences. Therefore, some activities may be the same as those offered to boys and men, some may be altered, and some may be altogether different. The college always concentrates on students' academic performance along with their overall personality development. Observing gender equality, the girls are provided with various facilities. The NCC unit for boys and girls is meticulously developing their character and qualities like comradeship, discipline, leadership, secular outlook and spirit of adventure. This unit focuses on outstanding achievements of the girls. The lectures of eminent personalities are held on various topics to develop their personality. Workshops are held on 'Prevention of Sexual Abuse and Safety of Girls Students', 'Health and Hygiene,' 'Awareness & Legal Aspects of Sexual Abuse', 'Sexual Harassment of Women at Workplace (prohibition, prevention and redressal),etc. 36 such programs were organized in the last 5 years to make the girls aware of their rights and responsibilities. Girls are made aware of laws and by-laws by organizing lectures of eminent judges, lawyers, social workers etc. Anti-ragging Committee and Internal Complaints Committee have been formed in the college. Our girl students have achieved grand success in the field of Cultural Activities and Sports. Their participation in Youth Festival and various competitions has brought laurels and fame to them as well as the College. In the public societal action the College provides classes for parents on parenting issues and also women and Laws. The analysis of the responses of students with regard to programme planning and design in college and its activities revealed that most student members feel that the gender equity in policies, programmes of the college is adequate

4. SUMMARY AND CONCLUSION

A. Progress towards Gender Equity

"Gender equality, equality between men and women... does not mean that women and men have to become the same, but that their rights, responsibilities and opportunities will not depend on whether they were born male or female. Gender equity means fairness of treatment for men and women according to their respective needs. This may include equal treatment or treatment that is different but which is considered equivalent in terms of rights, benefits, obligations, and opportunities." -United Nations Educational, Scientific and Cultural Organization (UNESCO) The college constantly endeavors to work for the benefit of female staff and female students. The institution recognizes that women and men have different needs and power and that these differences should be identified and addressed in a manner that rectifies the imbalances between the sexes. This may include equal treatment, or treatment that is different but considered equivalent in terms of rights, benefits, obligations and opportunities. The college not only tries to organize different activities to make the female students and staff aware about gender sensitization but tries to motivate them to live in a dignified manner and due self-respect.

We find that student's strength particularly girls' strength is increasing in both UG and PG programmes. We can see the differences in their enrolment also. More girls are enrolling for higher studies. Their strength is on the higher side. Further it has been observed that the success rate among girl students is more as compared to boys. They are taking interest in participating in all co- curricular and extra-curricular activities including cultural programmes organized by the institution. Their participation in sports is also commendable. In our institute we found that among regular teaching staff the strength of females is higher than that of males.

B. Conclusion:

The analysis shows that gender equity goals and objectives are included in all the policies, programmes of the college. The staff also reported that they have no problems related to gender criterion. Gender Audit Team analyzed that gender equality and gender sensitivity is encouraged by management and staff of the college and they do have gender sensitive behavior. It is found that the college has a lot of strengths and opportunities to develop good gender balance. The weaknesses can be overcome with gradual changes in value set up. Doubtless, the enrolment of girls from all sections of society is increasing and there are no gender issue

complaints. With the strong will power and commitment to gender justice, the College would certainly make a mark in the country.

C.Recommendations: In the coming years, we aim to –

- Organize more co-curricular and extra-curricular activities for students and staff including males and females.
- Motivate girl students to actively participate in sports of their own choice.
- Organize awareness programs on Legal Rights of Women.
- Introduce self-employment training in different subjects.
