AND

Siddhant College of Pharmacy is situated at Sudumbre, Maharashtra 410501 affiliated to Savitribai Phule Pune University, hereinafter referred to as '**Second Party**';

TISS and Siddhant College of Pharmacy shall herein after collectively be called "the parties" and individually as "the party".

1. STATEMENT OF PURPOSE

The employability of India's university graduates continues to remain weak even while there is an acute shortage of skilled manpower in an increasing number of high demand sectors. The youth are thus disillusioned about job opportunities post their studies. Though they have educational degrees, they lack the skills and the experience to get employed.

Skilling the youth to enhance their employability and enabling them to be effective contributors to the nation's growth and development assume paramount importance in the current context.

The Tata Institute of Social Sciences has been working to reach the youth through an innovative programme called '**National University Students' Skill Development (NUSSD)**' for the same purpose. The aim is to enable the youth enrolled in the various degree programs in Colleges and Universities in India to acquire skills that would give them a Certificate/Diploma in a specific high demand domain area in addition to their degree. Students will be introduced to holistic education which encompasses components of employment-oriented training, exposure to community services, life skills training and civic education to fulfill the changing requirement of higher education

and thereby bringing about vocationalisation of higher education. Eventually, this programme is poised to cover all the youth in the university system wanting to enhance their employment potential by gaining skills along with a graduate degree in their chosen discipline

2. PROGRAMME BACKGROUND

The National University Students' Skill Development (NUSSD) Programme is a unique initiative on skill development designed and delivered by the Tata Institute of Social Sciences (TISS). The programme was initiated in 2013 in collaboration with **Ministry of Youth Affairs and Sports, Government of India (GoI)** and **National Skill Development Agency (NSDA), GoI** to enable graduating youth acquire employable skills while pursuing their graduation or post-graduation so that they are job-ready as and when they pass out from the colleges. After completion of a successful pilot in 34 colleges of 11 Universities, spread across 9 States, the programme is being implemented across 200 colleges, including Engineering and Management colleges. The programme is currently in its second phase and covers a student population of more than 20000, spread across several states in the country.

The United Nations (UN) Steering Committee on Children and Youth has recognized NUSSD programme among the best skill development practices in the country.

NUSSD offers Certificate in Management and Soft Skills and skill-linked domain courses leading to a Diploma (e.g. Diploma in Entrepreneurship) to college going students. The classes are held in the participating College or University and the programme is designed on a schedule that minimizes disruption of regular studies and personal pursuits of participating students.

3. OBJECTIVES OF THE PROGRAMME

The NUSSD programme aims to increase employability of graduating youths by imparting knowledge, skills and competencies in relevant field. The programme also intends to develop the inner potential, critical thinking, and a sense of civic responsibility among students.
