आपल्या प्रेमाची कविता सतत वाढत जाऊ दे...

शेवटी एवढेच सांगतो...
विश्वासाचे चार शब्द...
दुसरे काही देऊ नकोस...
जाणीवपूर्वक नात जप...
मधेच माघार घेऊ नकोस...
मधेच माघार घेऊ नकोस...

Create Your Own World...

Everything happens for a reason. Nothing happens by chance or by means of good or bad luck.

Illness, injury, loss, love moments, greatness and sheer stupidity all occur to test the limit of our soul. Without these small tests, life would be like a smoothly paved, straight, flat road to nowhere.

If someone hurts you, betrays you, or breaks your heart, forgive them. Because they have helped you to learn about trust and the importance of being cautious.

If someone loves you, love them back unconditionally not only because they love you, but because they are teaching you to love and opening your heart and eyes to things you would have never seen or felt without them. Make every day count, appreciate every moment, and from it everything that you possibly can, for you may never be able to experience it again. Talk to people you never talked to before, and actually listen. Hold your head up because you have every right to tell yourself, you are a great individual and believe in yourself for. If you don't believe in yourself, no one else will believe in you either. You can make of your life anything you wish.

Create your own world and then go out and live it.

Success of Life

Watch your thoughts, They become words.
Watch your words, They become action.
Watch your actions, They become habits.
Watch your habits, They become character.
Watch your character, It becomes your destiny.

College Life

Stepping into a new life where one faces oneself

Some consider everything a race and chase after them all,
While others find it difficult to even tie their shoe lace.

Many here care for you, but you care for a select few
Lots of leisure, lots of pressure
In the midst of which, some search for treasure.

The greatest invention being the headset without which no one's heads are fit
More sleep, less work, but still feeling tired every other minute.

Sudden decisions rare output even don't care for taking next
More dance, more wishes,
Many an exams and test.

Suddenly, when you look back the poster says "The End",
the 35040 hours of these four years are just like the three hours of a movie

Passing by in the snap of your fingers
Leaving behind many a memory that lingers.
